Genilogix Acquires Calvert Dynamic

Acquisition adds consulting practice centered on implementation of HP Project & Portfolio Management Center to help customers gain visibility into IT supply and demand, identify and prioritize projects, and achieve financial transparency across the IT investment lifecycle

Pittsburgh PA, November 19, 2010: Genilogix, an HP Elite Partner and leading provider of quality and performance assurance solutions, today announced it has acquired Maplewood, New Jersey-based Calvert Dynamic, LLC. Calvert Dynamic is a privately held provider of implementation services for HP Project & Portfolio Management Center (PPM). Calvert Dynamic now becomes part of Genilogix's rapidly growing Genilogix Strategy & Governance consulting practice, which delivers optimized investment decisions and improved transparency.

Mel Maxwell, President of Genilogix, said, "Calvert Dynamic is recognized as a leader in providing services for the HP Project and Portfolio Management market. This acquisition enables Genilogix to address the governance, investment decision and management decision needs of the CIO and CFO."

Andy Ellman, Calvert Dynamic's Managing Director, stated, "Combining Genilogix and Calvert Dynamic's deep process and technical expertise makes us the preeminent player in the Business Technology Optimization space". Andy Ellman becomes Genilogix's Vice President of Strategy & Governance reporting to Mel Maxwell.

Headquartered in Pittsburgh, Pennsylvania, Genilogix is an HP Software Elite Partner and winner of the 2010 HP Partner Solution Offering of the Year award. Genilogix provides a range of products and services to help customers recognize value within their organization for the HP business technology optimization (BTO) product line. Genilogix works closely with HP to offer innovative products and services that bring quality management together with test automation, test management, and performance monitoring. Certified product integrations such as Genilogix QC Mobile, QC eApprove, QC Workflow Accelerator, and QC vLab distinguish Genilogix as a unique value-added reseller.
